Education: Nielsen Norman UX Cert. '23 | Google UX Cert. '21 | FIU, B.S Biology '18

User Experience Designer with a background in solving complex, systemic initiatives in B2B & B2G enterprise products, using a combination of UI/UX and technical knowledge to close the gap between what's designed and what actually ships.

WORK EXPERIENCE

VetsEZ | July 2026-Present

UI/UX Designer II | July 2026-present

- Conducted 508 testing and led design system creation based on USWDS/ VADs.

Booz Allen Hamilton | June 2022-July 2026

UI/UX Designer II | July 2023-July 2026

- Contributed to 30+ initiatives on an enterprise federal digital platform for VA Appeals during a period when VA Appeals decisions increased by 23%.
- Collaborated with Business Analysts and Tech Leads in storywriting and conducted UI/UX reviews to ensure design fidelity through development and release.
- Assisted with internal audits for the platform's design system in order to meet WCAG/508 standards.
- Improved designer efficiency by developing Figma plugins that expedited the wireframing process and working with AI models and MCP servers to further bridge the design to developer gap.
- Created an interactive onboarding guide and an online glossary of over 500+ VA terms that reduced internal onboarding ramp-up time from 6 to 5 months.
- Presented on UI/UX topics at a VA-wide, multi-project community of practice for UX professionals and joined the council of leaders at X&D Advisor Hub, a cross-project, UX mentorship platform at Booz Allen Hamilton.
- Ran onboarding sessions at a quarterly cadence for new cohorts of advisors and advisees in the X&D Advisor Hub.
- Created a PowerApp to support acquisition and retention of advisors and advisees into the X&D Advisor Hub.

UI/UX Designer I | June 2022-July 2023

- Mapped out complex user flows and designed interactive Figma prototypes, enabling rapid iteration with over 24 agile development teams.
- Modernized design infrastructure by assisting in the migration from Sketch to Figma and implementing a scalable, atomic design-based design system that introduced reusable components, templates, variables, tokens, and auto-layout.
- Supported stakeholder workshops, SME interviews, and requirements analysis to translate complex business needs into user-centered experiences.

SKILLS

- | | |
|---|--|
| • User Research & Stakeholder Management | • Jira, Confluence & GitHub |
| • Information Architecture | • HTML, CSS, JavaScript, React |
| • Design Systems, Design Tokens & Atomic Design | • Section 508/WCAG Auditing |
| • Figma & Figma API | • Cross-Functional Collaboration/Agile |
| • Wireframing & Prototyping | • AI-Assisted Workflows |
