Education: *FIU, B.S. Biology '18 | Google UX Cert. '21 |Nielsen Norman UX Cert. '23*

UI/UX Designer with 4+ years of experience designing enterprise digital products for federal, healthcare and nonprofit spaces, specializing in design systems, accessibility (Section 508/WCAG), and developer handoff. I build reusable Figma component libraries and work with developers through release, using my HTML, CSS, and React knowledge to close the gap between what's designed and what ships.

WORK EXPERIENCE

VetsEZ | July 2026-Present

UI/UX Designer II

- Leading 508 testing and design system creation based on U.S. Web Design System (USWDS)/ Veterans Affairs Design System.
- Restructuring information architecture for a clinical referral management application, separating data-heavy pages into focused detail views using visual hierarchy and spacing to make patient and referral data easier to scan.

Booz Allen Hamilton | June 2022-July 2026

UI/UX Designer II | July 2023-July 2026

- Created solutions for 30+ initiatives on an enterprise federal digital platform that processed over 87% of paperless appeals and supported 80,000+ Veterans awaiting hearings.
- Collaborated with Business Analysts and Tech Leads in story writing and led UI/UX reviews to ensure design fidelity through development and release.
- Ran unmoderated usability tests on Figma prototypes with VA employees and used the findings to refine designs before development.
- Conducted internal audits of the platform's design system to meet WCAG/508 standards.
- Improved designer efficiency by developing Figma plugins that sped up wireframing for 20+ designers.
- Worked with Framelink MCP and Github Copilot to bridge the design-to-developer gap as well as synthesize information across a large repository of code in Github.
- Created an interactive onboarding guide and an online glossary of 500+ VA terms that reduced internal onboarding ramp-up time.
- Presented on UI/UX topics at a VA-wide, multi-project community of practice for UX professionals and joined the council of leaders at X&D Advisor Hub, a cross-project, UX mentorship platform at Booz Allen Hamilton.
- Ran onboarding sessions and created a PowerApp to support acquisition and retention of advisors and advisees into the X&D Advisor Hub.

UI/UX Designer I | June 2022-July 2023

- Mapped out complex user flows and designed interactive Figma prototypes, enabling rapid iteration with over 24 agile development teams.
- Modernized design infrastructure by assisting in the migration from Sketch to Figma and implementing a scalable, atomic design-based design system that introduced reusable components, templates, variables, tokens, and auto-layout.
- Supported stakeholder workshops, SME interviews, and requirements analysis to translate complex business needs into user-centered experiences.

ADDITIONAL EXPERIENCE

- **Reach4Help | UX Design Volunteer |October 2021-October 2023:** Conducted research and designed wireframes for a cross-platform, disaster relief application.

SKILLS

- User Research & Stakeholder Management
- Information Architecture
- Design Systems, Design Tokens & Atomic Design
- Figma & Figma API & AI-Assisted Workflows
- Photoshop, Procreate, & Microsoft 365
- Usability Testing
- Wireframing & Prototyping
- Jira, Confluence & GitHub
- HTML, CSS, JavaScript, React
- Section 508/WCAG Auditing
- Cross-Functional Collaboration/Agile
- Miro & Mural
